

Action Mesothelioma Day

27 February 2007

Mesothelioma Devastates Whole Families

In the UK, mesothelioma kills some 2,000 people a year. that means a family is devastated every 5 hours. The disease is predominantly caused by asbestos exposure. Amicus calls for improved worker protection, more funding for research, better care and treatment.

SUPPORT ACTION MESOTHELIOMA DAY *we are.*

If any of our members have been exposed to asbestos, contact the Amicus legal dept to be put on our asbestos register.

AMICUS REPS:

Organise an event at work: A period of silence.
Lobby your MP or just put up this poster.
